

Cool & Fresh Air...
Hassle-free.

Comfort
desired for
Small Spaces

F-Series is ideal for residential apartments & small areas ranging from 10 to 50 Sq. mt.

F-Series is an innovative concept developed by Greencon to provide "FPU i.e. Fan Pad Unit". FPU deliver cool air with minimalistic noise & maintenance. These ultra slim machines can be easily suspended from the ceiling of a balcony to supply filtered, cooled & fresh air through aesthetically pleasing linear grills to match your taste of interiors.
